## 1. Scope.

The Advanced Distributed Simulation Technology (ADST) Advanced Rotory Wing Aircraft (ARWA) Contract Work Breakdown Structure (CWBS) is presented in this document.

### 1.1. Identification.

The ADST ARWA CWBS is submitted under Contract No. N61339-91-D-0001, Delivery Order No. 0048, CDRL A00A. Reference number for this document is ADST/TR 94-003275.

### 1.2. CWBS overview.

The CWBS is reflected in two parts. Part I is an index of work breakdown structure (WBS) entries and is presented in Paragraph 3. Part II is a dictionary with one page for each WBS entry and is presented in Paragraph 4.

### 1.3. Document overview.

The Advanced Distributed Simulation Technology (ADST) Advanced Rotory Wing Aircraft (ARWA) Contract Work Breakdown Structure (CWBS) establishes the framework for reporting program cost schedule, and technical performance for the ARWA delivery order. It provides the basis for uniform planning and reporting status and program visibility and assignment of responsibilities.

**2. Referenced documents.**

**Statement of Work for Acquisition of  
the Advanced Rotary Wing Aircraft  
(ARWA) Simulator System, Version  
3.0, dated 11 June 1993**

**ADST/TR 94-003276**

**System/Segment Specification for the  
Advanced Rotary Wing Aircraft  
(ARWA), dated 28 February 1994**

### 3. CWBS Index.

This section presents the ADST ARWA CWBS Index in the Work Breakdown Structure Index Table. The CWBS Index contains information for all data elements of the ADST ARWA delivery order program work breakdown structure. The index includes the following information as applicable:

- a. Header.
- b. Work Breakdown Structure Elements/Tasks. Identifies each WBS element. The title is indented to reflect the level, where level 1 is the total delivery order. Levels 2, 3, etc., are successively lower levels of the program.
- c. Material Program Code and WBS Code. The Material Program Code is provided by the Government and the WBS codeing is devised by Loral. The element is identified as belonging to a specific code.
- d. Phase. Each WBS element is identified as belonging to a specific phase.
- e. Contract Line Item. Each WBS element is associated with a contract line item.
- f. SOW Paragraph Number. Each WBS element is associated with a paragraph(s) from the Statement of Work (SOW).
- g. Specification Number. Each WBS element is associated with a specification number.
- h. Contract End Item Number. The contract end item number is identified for each WBS element.

#### **4. CWBS Dictionary and Contract Requirements.**

The CWBS Dictionary and Contract requirements are described in the Contract Work Breakdown Structure, Part II WBS Dictionary and Contract Requirements Table. This table describes the technical and cost content of every WBS element. It describes what the element is and efforts associated with the WBS element, such as, design, development, and integration.
